

State Speed Event Series

2019 CHAMPIONSHIP SERIES REGULATIONS AND SCORING.

OVERVIEW

THE CAMS State Speed Event Series (SSES) is designed to encourage competition for all ages and improve the skill level of competitors. The only requirements are for the Driver to be a member of a CAMS affiliated club, hold a minimum of a Level 2S CAMS competition licence and compete in a vehicle which complies with the General Requirements for Cars and Drivers, Schedules A and B. Details can be found on the CAMS website.

This is a friendly competition designed to improve driver skill and vehicle performance whilst determining best and fairest competitor. We thank our promoters and sponsors for their contributions; they are currently WASCC, MSW, Rally WA, GSSMA, LF Performance.

Authority

The events shall be conducted under the provisions of the International Sporting Code of the FIA, the National Competition Rules of CAMS, these Regulations, Supplementary Regulations and any Further Regulations that may be issued by the promoters.

Access to the current CAMS Manual of Motorsport is provided at

<https://www.cams.com.au/motor-sport/regulations/cams-manual>

Series Registration

Registration for the 2019 season is \$99.00 Inc GST and can be completed here on the CAMS online registration page. [CHAMPIONSHIP REGISTRATION](#)

Fees are held by CAMS in a managed trust fund. Funds are used to purchase Event and Season Trophies or Awards and for general administration of the Series. Registration for the Series entitles the competitor to;

- Notification of entries
- Earn Series points
- Be awarded event trophies & end of season series trophies
- A competition number allocated for the season
- Vehicle Decals with Registered Number (once only at first registration)
 - Access to the Targeted Vehicle Scrutineering System

Non series registered competitors are not entitled to series points or event trophies.

Each event organiser will issue Entry Forms and Supplementary Regulations that will be read in conjunction with these Conditions. Registered competitors will receive an email notification of event entries.

Competitors will be provided one set (2) of decals with their allocated number as part of their initial registration. Replacement decals can be ordered at additional cost.

Competition Number 1 is reserved for the previous year's Series Champion. Competitors can register at any time during the season for the Series competition and will accrue points after registration.

Points, Trophies & Awards

The CAMS Western Australian Speed Event Champion of the Year shall be the competitor with the highest overall points at the end of the season. Series points can be earned across all championship rounds of the 2019 season.

For the 2019 season, participants two (2) lowest scoring rounds will be disregarded the remaining rounds will count towards the total points score.

Point scores are accumulated according to the table below:

1st 25 2nd 20 3rd 18 4th 17 5th 16 6th 15 7th 14 8th 13 9th 12 10th 11 11th 10
12th 9 13th 8 14th 7 15th 6 16th 5 17th 4 18th 3 19th 2 20th 1

Trophies for Season Overall Champion will be presented at the CAMS WA awards ceremony to be scheduled at the end of the season. Trophies for class winners and others will be presented at the SSES presentation event post season.

Series organisers will award event trophies to NCR Classes which have more than three entries at an event.

In the event of less than 3 entries at an event in a class, no trophy will be awarded, but the entries are entitled to SSES championship points. When there are at least 3 entries in a class at an event, 1st place trophy will be awarded. When there are at least 5 entries in a class at an event, 2nd place trophy will be awarded. When there are at least 8 entries in a class at an event, 3rd place trophy will also be awarded.

An NCR class needs to have at least 3 competitors that ran within it during the season before a trophy will be awarded at the end of season. When there are at least 5 competitors that ran in a class during the season, 2nd place trophy will be awarded. When there are at least 8 competitors that ran in a class during the season, 3rd place trophy will also be awarded.

An NCR class that is orphaned (i.e. a class which has less than the minimum of 3 competitors all season) may be combined with other compatible orphaned class(es) at the end of the season in order to come up with a combined class winner. An orphaned class would not be combined with a viable NCR class. The competitor with the highest overall/outright series points is the winner of a combined class (class points would not be used in the determination of the

winner in this case). If the overall/outright points method fails to determine the winner, highest place finishes in each round will be used to determine the winner.

A competitor may enter 2 cars per event, however he/she may only be awarded one lot of overall points (the higher scoring lot of the 2) and one lot of class points (the higher scoring lot of the 2) if both cars entered are in the same class. A vehicle may only be nominated to be in one class per event. A registered competitor is able to score class points across different classes during the season as well as at an event.

Where multiple competitors are tied on points (both end of year class points tally and overall/outright points tally) at the end of the season, the tie shall be settled by count-back based on the highest place finishes in each round.

Vehicle Scrutiny

Vehicles must be presented for inspection by a series scrutineer before being allowed to compete unless registered in the CAMS Targeted Scrutiny System.

All competitors are required to declare an NCR class for their entries at SES events hosted by various host clubs. The SSES team is there to assist for the class info if needed. If no class is nominated on the event entry form prior to the event, the SSES will classify the vehicle as it sees fit based on the information available.

Capacity Break(s) of an NCR class

When at least 3 of each cc break have competed during the season, a capacity break will be formed within that class. The cc break chosen will fall between the cc breaks within that NCR class regulation.

Apparel

All competitors must comply with Schedule D for Speed Events.
Roll Over Protection is recommended.

Vehicle Classification

Entry to the series is available to all CAMS vehicle classes, including rally, drift and time attack vehicles. Competitors should determine which CAMS Category, Group and Class their car is compliant to when making the vehicle eligibility statement on their entry form. Competitors are reminded of the penalties applicable when entering a vehicle that is not compliant with the regulations. The onus of compliance lies with the entrant.

If a vehicle is modified beyond the NCR class specification, it is advisable for the entrant to state this on the entry form using the prefix "MODIFIED" to indicate to the organisers that the vehicle is not compliant to the category, NCR class or regulations.

Modified vehicles will be classified into classes with similar performance. Competitors will be advised of classification prior to competition. Vehicles with alternate forms of drive such as electric or hybrid engines will require an application be made to the series coordinator(s) prior to registration. This is to allow organisers forewarning to classify the vehicles and determine any alternate safety requirements for these vehicles.

In the event of a vehicle being modified beyond what is allowed in the nominated NCR class during the championship season, the vehicle will migrate to its new class and no longer be eligible to score points in the previous class.

Basic Class Structure

Category 1 - Racing Cars

Including Formula Libre, Formula Ford and Formula Vee

Category 2 – Sports Cars

Including Production Sports Cars, sports cars open and closed

Category 3 – Touring Cars

Touring, production touring, sports sedans and rally cars

Category 5 – Historic Cars

Category 7 – Drift Cars, Speed Event special vehicles, Time Attack Cars, Road car (ie Road Registered Standard), Limited Modified Road Car (ie Road Registered Modified)

Car numbers

SES Competitors' car numbers will be carried over from the 2018 season. Those allocated SES car numbers will be kept for a SES competitor who are yet to be registered until the 3rd round of the season. Post 3rd round any unallocated numbers will be made available for reallocation again.

Sportsmanship

Competitors are reminded of the provisions contained within the regulations governing the sport, penalties may apply for poor sportsmanship or behaviour. All competitors have protections and rights to protest, these should be directed to the Stewards of a meeting.

Championship Calendar Addendum:

Calendar Disclaimer

Cancelled event beyond the series' control, e.g. cancellation of an event by the host club for whatever reason(s), poor weather, force majeure and/or other reasons would result in one less round being held in the 2019 season. Efforts shall be made by the SES team to replace an event(s), though the replacement event(s), if found, may not necessarily be a like for like replacement.
